KDV’s range of bi directional Straight Through Type diaphragm valves offer exceptional durability and reliability. The clean design completely isolates line media from the mechanical components of the valve. Bubble tight shutoff (Class VI) and in-line serviceability (top entry) maximise plant efficiency and productivity.

KDV Straight Through Type diaphragm valves are suited to on-off and control applications and can be custom specified to suit a wide variety of applications.

Contact your KDV technical sales representative to ascertain the correct valve and lining options for your specific application.

**Designed & Manufactured by KDV**

KDV Diaphragm valves are manufactured to international standards. Precision machining and strict quality control ensure consistency, reliability and durability.

**COMMON APPLICATIONS**

- Slurries
- Floatation chemicals
- Underflows
- Digestion chemicals
- Water and waste water
- Organic sludge
- Acids
- Salts
- Effluent treatment
- Lime solutions
- Caustics

**RUBBER LINING OPTIONS & IDENTIFICATION**

Lined valves are identified with a flash of colour on the valve body

- HARD RUBBER (White)
- BUTYL (Red)
- EPDM (Pink)
- SOFT RUBBER (Blue)
- NEOPRENE (Yellow)
- HYPALON (Purple)

**FEATURES & BENEFITS**

- Bubble-tight shutoff
- Easy/low maintenance
- Readily available spare parts
- In-line serviceable (top entry)
- Cavity free design
- Position indicator
- Excellent control characteristics
- Low fugitive emissions
- No stem seal leakage
- Line media isolated from valve mechanics
- Tamper proof over closure protection

**OPERATOR OPTIONS**

- Lockable device (for isolation)
- Sealed bonnet
- Extension spindle
- Chain wheel

**AUTOMATION SYSTEMS**

- Pneumatic (fail open, fail closed, double acting)
- Electric
- Hydraulic

**OPTIONS**

- Range of body materials
- Specialty coatings to suit a variety of environmental requirements
- Internal linings and coatings
- Range of bonnet materials

**FAST TRACK**

In house manufacture and stock holdings allow KDV to deliver quickly, and reliably facilitate fast-track projects. Visit our website for information on the full range of KDV Diaphragm Valves.

SERIES 37 DIAPHRAGM VALVES
STRAIGHT THROUGH TYPE - RUBBER LINED
DN25 - DN200 RISING HAND WHEEL

MATERIAL SPECIFICATIONS
• Cast Iron (ASTM A126 Gr CI B)
• Cast Ductile Iron (ASTM A395 Gr 60-40-18)
• Carbon Steel (ASTM A216 Gr WCB)
• Stainless Steel (ASTM A351 Gr CF8, CF8M, CF3, CF3M)

FLANGE DRILLING STANDARDS
• ANSI B16.5 Class 125 & 150
• EN1092 (PN10/16) (BS4504)
• AS2129-2000 Table D/E (BS10 1962)
• JIS B2220

DIAPHRAGM MATERIALS
10 - Natural rubber (NR)
20 - EPDM rubber
30 - Butyl rubber (IIR)
40 - Nitrile rubber (NBR)
50 - Neoprene rubber (CR)
60 - Hypalon rubber (CSM)
70 - Viton rubber (FKM/FPM)

NB: Vacuum grade diaphragms available on request.
